EDITION MARCH 2017

## **SPECIAL EDITION: COUNTRY LIAISONS**

**MEET THE COUNTRY LIAISONS**

**COUNTRY LIAISONS IN ACTION: PROMOTING EMEUNET**

**EMEUNET: A GROWING COMMUNITY**

## Dear young rheumatologists and researchers in rheumatology,

We are happy to present to you a new edition of the Country Liaison Newsletter. Our team in the Country Liaisons Subgroup works closely with the ambassadors of EMEUNET in the EULAR countries, the Country Liaisons, in order to promote and expand the EMEUNET network and reach enthusiastic young rheumatologists and researchers. The Country Liaisons are a vital pillar of our community. The activities that they organize in their countries and the networks that they build support the development of young rheumatologists and their access to the educational and professional opportunities offered by EMEUNET/EULAR. In this newsletter, you can get to know the Country Liaisons and see snapshots from the different activities they organized in their respective countries. We also have the pleasure to introduce our new Country Liaisons, who have taken the challenge and joined the team. We warmly thank all our current as well as former Country Liaisons for their wonderful and inspiring work! In this issue we have highlighted the outstanding contribution of some Country Liaisons. We are looking forward to this year's Country Liaison meeting during the EULAR Congress in Madrid. If this is the first time that you have heard about EMEUNET and/or Country Liaisons, we invite you to read this Newsletter and join us! Find your national Liaison, get in contact with him/her or directly speak to any EMEUNET member and become an active member of EMEUNET! The Country Liaisons rotate every 2-3 years, you could be next! We hope you enjoy reading this Newsletter. Questions or comments are always welcomed!

Alessia Alunno, Marlies van der Goes, Marcin Milchert, Ania Olewicz-Gawlik, Valentina Vardanyan, Mary Canavan, Aurélie Najm, Javier Rodríguez-Carrio and Rucsandra Dobrota

*on behalf of the Country Liaison Subgroup*
