- Oral presentations and posters
- “The young rheumatologist” sessions
- Activities and get together
- Mentor/Mentee meetings
- The EULAR-EMEUNET Ambassador Programme
- 3rd Country Liaison Meeting

EDUCATIONAL EVENTS

Dear young rheumatologists and researchers in rheumatology,

We are happy to present you a new issue of EMEUNews about the Do-Not-Miss Topics of this year's EULAR annual meeting.

The EULAR congress is the largest scientific event in Rheumatology. As it is now approaching, we provide a selection of oral presentations and posters that we consider to be noteworthy. Albeit this is a limited way of looking at the numerous scientific releases at EULAR 2016, it might provide an overview of hot topics in each field of Rheumatology.

This current Newsletter also contains details about the "Young Rheumatologist" sessions and other events organized during the Congress.

Do not forget to visit our EMEUNET booth to get additional info and meet up with other young rheumatologists.

EMEUNET is now active in social media hubs such as Facebook and Twitter, while maintaining the traditional website and the important physical (and personal) presence at major Rheumatology scientific events.

If this is your first contact with EMEUNET, we invite you to explore more and join us. If you are already part of our community, we kindly remind you that sharing is caring. Spread the word about our activities and work, and help us reach more young rheumatologists and researchers.

We hope you enjoy reading this Newsletter. We always welcome feedback, comments, suggestions and contributions.

We wish you a prolific and successful EULAR 2016

See you in London!

Russka Shumnalieva, Richard Conway, Francesco Carubbi and Alessia Alunno on behalf of the Newsletter Subgroup
