## Dear young rheumatologists and researchers,

We are delighted to present to you a new issue of EMEUNews focusing on a selection of Do not Miss abstracts, sessions and events at EULAR 2017.

The EULAR congress is the largest scientific event in rheumatology. As it is now fast approaching, we provide a selection of interesting oral presentations and posters chosen by EMEUNET Working Group members. Beginning with this newsletter we also include selections from health professionals in rheumatology and PARE members. Although this is a limited selection of the vast array of new scientific information to be presented at the meeting, we hope that the selections will provide some inspiration to attendees.

This Newsletter also contains details about other exciting networking events and opportunities organized during the Congress.

As always EMEUNET will be highly visible at EULAR, come visit our booth in the EULAR Village to meet us and get more information. In addition to our physical presence at EULAR, EMEUNET will also be active on social media including Facebook and Twitter during the Congress, check out our pages for more information.

If this is your first contact with EMEUNET, we invite you to explore more and join us. If you are already part of our community, we kindly remind you that sharing is caring. Spread the word about our activities and work, and help us reach more young rheumatologists and researchers.

We hope you enjoy reading this Newsletter. We welcome all feedback, comments, suggestions, and contributions.

We wish you a prolific and successful EULAR 2017. See you in Madrid!

*Francesco Carubbi, Alessia Alunno, and Richard Conway,  
on behalf of the Newsletter Subgroup*
