ACR 2018 HIGHLIGHTS

ACR 2018 CHICAGO
- Oral presentations and posters
- Mentor/Mentee meetings
- Networking event

EDUCATIONAL EVENTS

ACR/EULAR EXCHANGE PROGRAM

ISSN 2521-7852
Dear young rheumatologists and researchers in rheumatology,

We are delighted to present you with our new issue of EMEUNEWS, detailing highlights from the recent ACR annual meeting held in Chicago.

The ACR 2018 Congress was a fascinating scientific event; in this issue, we provide a selection of oral presentations and posters that were presented in the various clinical and research areas of rheumatology. The selection is naturally personal and therefore incomplete, but hopefully provides an overview of hot topics that were discussed in each area.

We have also included details of the various events organized by EMEUNET, including the EMEUNET Mentor-Mentee meeting and the EMEUNET Networking event.

EMEUNET is active in social media channels, such as Facebook and Twitter, as well as maintaining its established website and the important physical (and personal) presence at major rheumatology scientific events.

If this is your first contact with EMEUNET, we invite you to explore more and join us. If you are already part of our community, we kindly remind you that “sharing is caring”. Spread the word about our activities and work, and help us reach more young rheumatologists and researchers.

We hope that you enjoy reading this newsletter and would be happy to receive any comments or contributions for future issues.

Achilleas Floudas and Antonis Fanouriakis on behalf of the Newsletter Subgroup
