ACR 2019 HIGHLIGHTS

Oral Presentations and Posters

Abstract Award Winners

Mentor-Mentee Meetings

Networking event

Educational events

Dear young rheumatologists and researchers in rheumatology,

We are delighted to present you our new issue of EMEUNews, covering the main highlights from the recent ACR 2019 annual meeting held in Atlanta.

The ACR 2019 Congress was a very productive and fruitful scientific event; in this issue, we provide a fine selection of oral presentations and posters that were presented in the various clinical and research areas of rheumatology, picked by EMEUNET Members. The selection is personal and therefore subjective, but hopefully provides a full overview of hot topics that were discussed in each area.

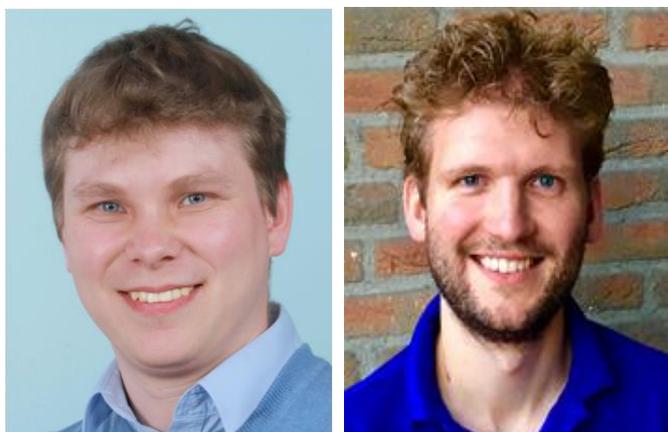

We have also included details of the various events organized by EMEUNET, including the EMEUNET Mentor-Mentee meeting and the EMEUNET Networking event.

EMEUNET is active on social media channels, such as Facebook, Twitter and YouTube, as well as maintaining its established website and the important physical (and personal) presence at major rheumatology scientific events.

If this is your first contact with EMEUNET, we invite you to explore more and join us. If you are already part of our community, we kindly remind you that “*sharing is caring*”. Spread the word about our activities and work, and help us reach more young rheumatologists and researchers to make us even stronger.

We hope that you enjoy reading this newsletter and would be happy to receive any comments or contributions for future issues.

*Mikhail Protopopov and Casper Webers,
on behalf of the Newsletter Subgroup*

CONTENTS

ACR 2019: ORAL PRESENTATIONS & POSTERS	3
Basic Research I	3
Basic Research II	4
RA I	5
