EMEUNET Observerships

Dear young rheumatologists and researchers in rheumatology,

We are excited to present you with a new issue of EMEUNews dedicated to the Highlights of this year's EULAR annual meeting. The EULAR 2019 Congress was an outstanding scientific event and, in this issue, we provide a selection of oral presentations and posters that have been presented in the various clinical and research areas of rheumatology. The selection reflects personal views of the contributors and thus is inevitably incomplete; nevertheless, it provides an overview of hot topics that were discussed in each field. Similarly to last year, the issue also includes selections from health professionals in rheumatology and PARE members. In addition, we provide an overview of all events and activities organized by EMEUNET during the EULAR congress. This year, the EMEUNET booth was again integrated in the EULAR village, thus attracting a high number of delegates. To celebrate the 10-year anniversary of EMEUNET, a special networking event including a dinner was organized with the EULAR family to further promote interaction between EMEUNET members. EMEUNET is immensely active in social media networks, such as Facebook and Twitter, while maintaining its original website and its robust visibility in major rheumatology scientific events. If this is your first contact with EMEUNET, we invite you to explore more and join us. If you are already part of our community, we kindly remind you that "sharing is caring". Spread the word about our activities and work, in order to help us reach more young rheumatologists and researchers. We hope that you enjoy reading this Newsletter and would be happy to receive any comments or contributions for future issues. With this editorial, we wish you restful and enjoyable summer holidays.

Sarah Wade and Casper Webers, on behalf of the Newsletter Subgroup

CONTENTS

EULAR 2019: ORAL PRESENTATIONS & POSTERS	3
Basic Research I	3
Basic Research II	4
RA I	5
RA II	6
