PRoS EMERGE

Young ASAS

Dear young rheumatologists and researchers in rheumatology,

We are proud to present you with a special edition of EMEUNews. For the first time, we present an issue that is entirely devoted to the Young International Rheumatologist and Researcher Organisations.

For this project, we have successfully collaborated with seven other young societies, from different regions across the world. Each of these organisations has been invited to present themselves, describe their history and share some of the initiatives that they are proud of. For us it was great to see that all contacted organisations were eager and enthusiastic to collaborate with us on this project. We hope that this newsletter will inspire all the participating organisations as well as you, our readership, and that it will be a promising kick-off to future collaborations.

These are challenging times for many in our community. In this issue, you will find the latest update on all information released by EULAR related to the COVID-19 pandemic. In addition, we provide several helpful links for the upcoming EULAR 2020 E-Congress, as well as several of EMEUNET initiatives during this event.

We hope that you enjoy reading this newsletter and stay safe!

Julia Spierings, Manouk de Hooge and Nadia Roodenrijs
on behalf of the Visibility & Global Affairs Subgroup

Casper Webers and Daniele Mauro
