For rheumatologists, pain physicians, general practitioners, physiotherapists and other practitioners/researchers in musculoskeletal disease.

4th – 8th March 2019
The Sir Duncan Rice Library
University of Aberdeen
King’s College
Aberdeen, UK
The course covers concepts and methods common to all chronic disease epidemiology. At the end of the course, delegates will have a thorough grounding in the principles of study design, the collection and analysis of data in epidemiological studies, and various methodological aspects of epidemiological study including bias, confounding, validity and reliability.

**Dates:** Monday 4th March – Friday 8th March 2019

**Venue:** The Sir Duncan Rice Library
University of Aberdeen
King’s College
Aberdeen, UK

**Cost:** £950 including all course materials, and transport from the course venue to/from the hotel.
£800 if booked by 30th November 2018

**Contact:** epidemiology@abdn.ac.uk
