

Introducing EMEUNET calendar

Dear EMEUNET member,

We have recently set up a new calendars of events and deadlines that can be found on the EMEUNET website <http://emeunet.eular.org/calendar.cfm>

These calendars offer the great opportunity to be synchronized with your own agenda, so that you will never miss a deadline! ☺

You can use applications such as outlook, using the following ICAL links:

For deadlines: [ICS file deadlines](#)

For events: [ICS file events](#)

Following the links, you will download a .ics file, if you have outlook installed the calendar should be automatically added to your agenda when opening the file.

In the next pages you will find a brief guide to set up the synchronization with google, for those of you who have or wish to create a google account.

If you have an android phone, the calendar will be automatically available on your phone.

If you have an iPhone, you can easily set it to automatically synchronize with a google account, by following the instructions at this link

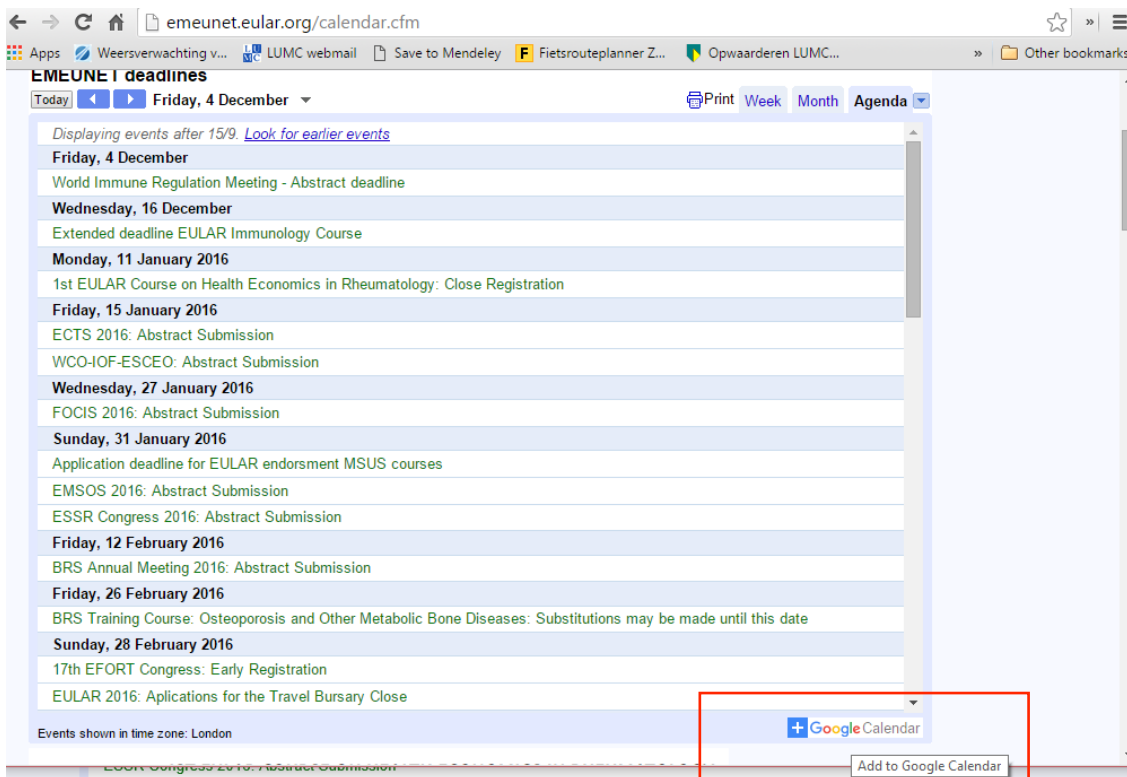

<http://www.digitaltrends.com/mobile/sync-multiple-google-calendars-on-iphone-or-ipad/>

We hope you will find this service useful and we welcome your feedback, should anything go wrong with the synchronization or should you have any suggestions.

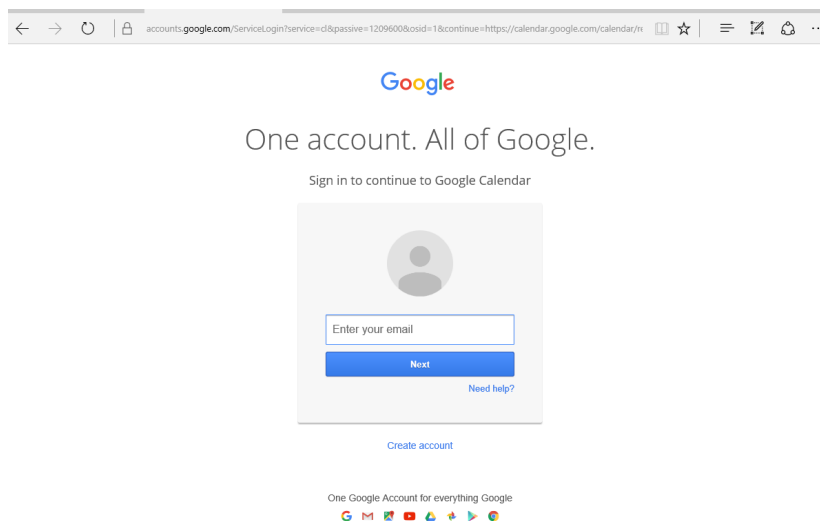

Education & Social Media subgroups

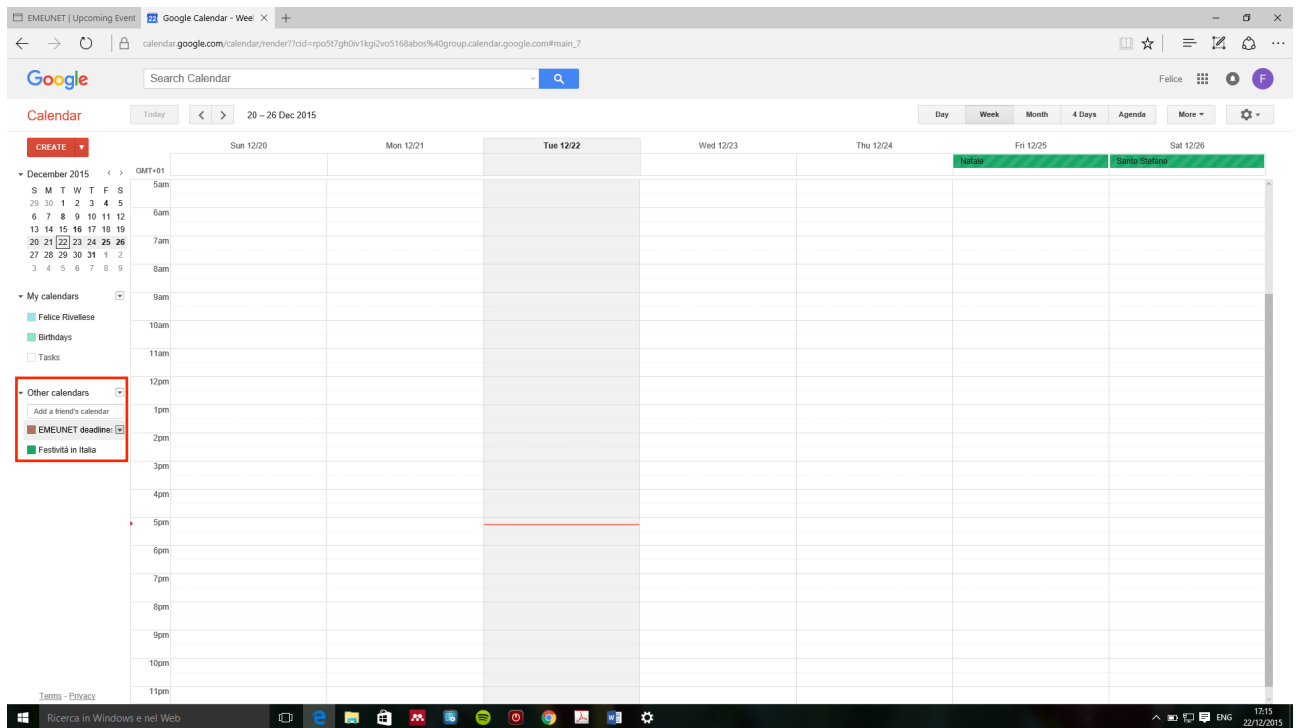

- 1) Go to the calendar webpage <http://emeunet.eular.org/calendar.cfm> and click on the icon  at the bottom right of the calendar

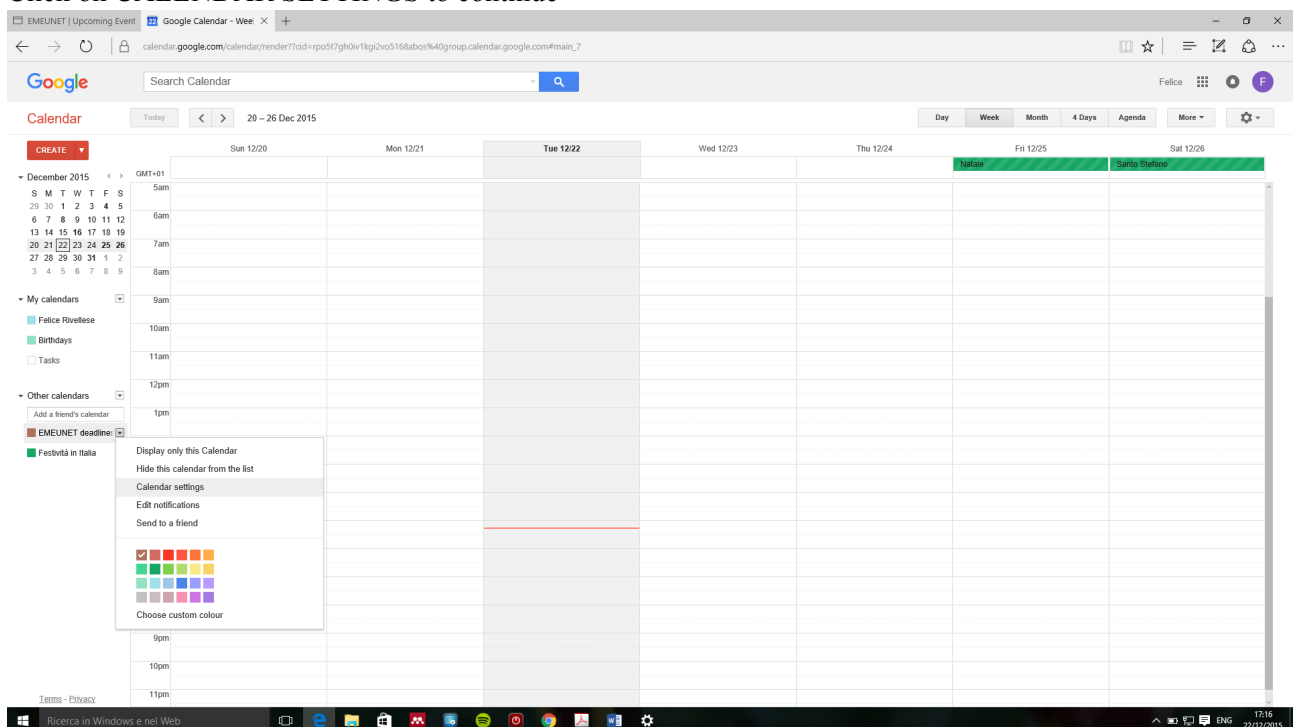

- 2) You will be redirected to the following page where you can either log in your google account or create a new one

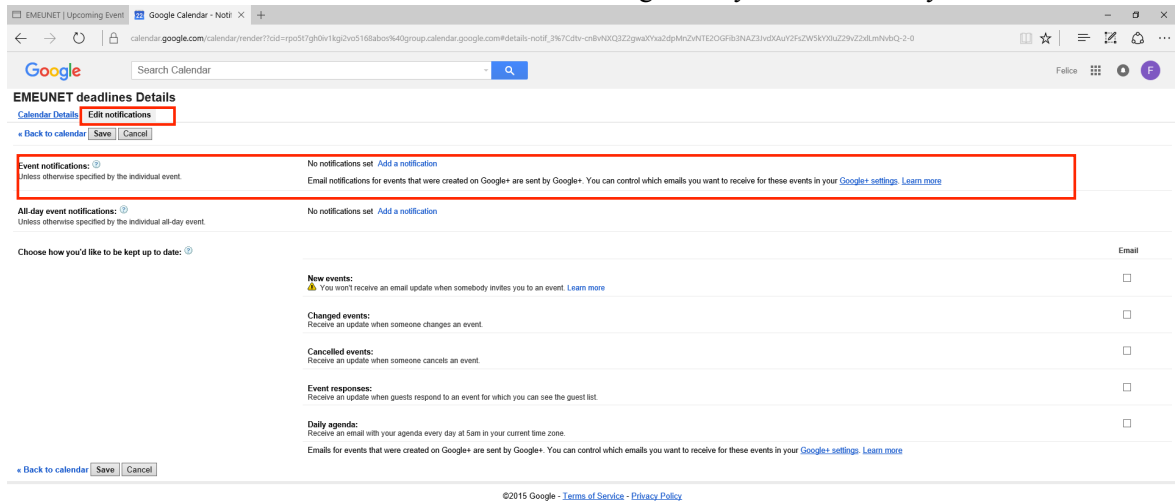

- 3) Once logged in, the calendar will be automatically added to your calendars and will appear in the list of calendars (under "other calendars") on the left side of the page

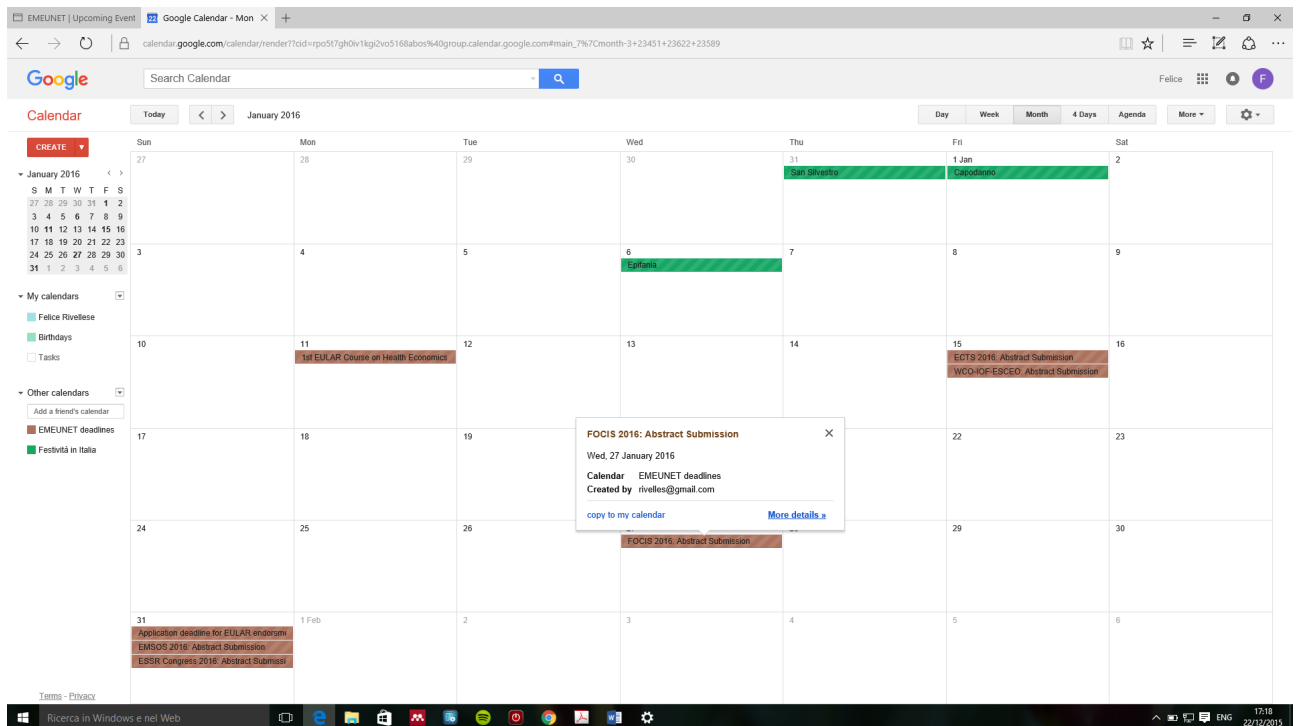

- 4) If you click on the calendar name, you will see a menu with different options, including the possibility to personalize the color of the calendar.
Click on CALENDAR SETTINGS to continue

- 5) Once in the calendar settings, select the tab ‘edit notifications’
 By default, when you add a calendar there should be no notification set up.
 You can decide to receive an email or pop-up N days before the event, and this will apply to all events. Please note that in our calendar the events are generally saved as all day events.

- 6) Alternatively, you can add notifications to single events, clicking on the event, then on ‘more details’ and then ‘add notification’
